NEWS FROM THE BRITISH NATIONAL SOCIALIST MOVEMENT

ISSUE - 8

THE EMBLEM

Here we have the eighth edition of The Emblem.

Our world is changing more and more. They want us to go away and hide. We will never give up on fighting for our race and nation.

We hope this edition is satisfactory for you.

Remember if you have something you think or want to be included in future editions.

Please get in touch through our email address: -

IMMIGRATION
AND
MULTI-CULTURALISM**

Getting Away With Murder

Come to our lands and do what you want. That seems to be the message our country is sending to the world. Come on a dinghy or in the back of a lorry. Claim asylum on lies and it is ok, our country will let you stay and even pay you for the privilege.

Another such case is the killing of seven-year-old Emily Jones. She was riding her scooter through her local park with her Dad, they were on their way to meet her Mum on Mother's Day. As Emily caught sight of her Mum, she scooted off towards her only to be grabbed by Eltiona Skana and she cut Emily's throat and ran away. Luckily, a passer-by stopped her and called the police. No one at the time had realised what Skana had done to

Emily.

Skana from Albania came to the UK in the back of a lorry after running away from her marriage in Kuwait. Once she arrived here, she claimed asylum and lied that she was trafficked here. This was in 2014, she was refused asylum in June 2018, but this was reversed on appeal and she was given a residency permit to remain until November 2024.

Skana was charged with murder, she denied murder but admitted manslaughter on the grounds of diminished responsibility. At the end of November, the murder trial started and just seven days in and the prosecution dropped the murder charges as they could not produce any evidence and are just happy to

accept manslaughter on the grounds of diminished responsibility.

During the short trial there was plenty of evidence about how unstable this woman was and what a danger she is. Yet for months she had no contact with her mental health team. She did get a visit some days before she killed Emily and the mental health worker was happy with how she was.

With the thousands of illegal immigrants that are wandering round our shores. How many more are using our system so they can get a way with murder but then they can stay here indefinitely being looked after by us the taxpayers as they serve their sentences in secure mental hospitals.

THE EMBLEM

THE EMBLEM is a British Movement publication.

It is not the intention of this publication to incite or promote hatred against any racial, ethnic or religious group or minority. THE EMBLEM exists to promote policies, principles and opinions of the British National Socialist Movement.

BRITISH MOVEMENT

To expand and present a modern British Nationalist Socialist agenda to the British Public.

To affirm the central message of the “14 Words”

“We Must Secure the Existence of Our People and a Future for White Children”.

THE EMBLEM reserves its hatred for those Establishment politicians and politically motivated groups and individuals who wish to destroy British traditions, British culture, British values, Britain’s heritage and our National identity.

Review of the Year

The year started with a bang and the first electronic edition of The Emblem. Now as we end the year, we have a solid subscription base. Thank you all for your continued support.

We have a great team working hard to get each edition out to you. Originally, we planned on four editions a year and we have surpassed that, and this is our sixth edition. We hope you have enjoyed all that we have done. Remember we are always looking for new people to join our team.

The main news this year has been dominated by the Chinese pandemic which has seen our liberties be taken away and then restricted and taken away again. Now if we are good, we can have 5 days for Christmas but do not hug your family. Oh, we

might get back to normal if you have a vaccine that we do not know enough about and cannot complain about if it does go wrong. But if you refuse the vaccine you will remain restricted.

Then during the summer when we could not go to the pub and meet up with friends and comrades. The Marxist Black Lives Matter raised its ugly head again and the world seemed fall for its lies and propaganda. Our police, footballers, media and many other organisations all taking to their knees in support of so-called equality that wants to see everything stripped from the white man as they destroy their own lands and people is our fault.

By the time Autumn was upon us and all children could return to school.

Many restrictions were slowly being pushed back on to us to the point a lot of the silent majority had, had enough and started protesting against the lockdown restrictions. But unlike the summer and the BLM protests where the police took to the knee and then were chased and attacked by protestors. For the anti-lockdown protests they went fully geared up and were extremely aggressive with protestors.

So as the year comes to end. Here is hoping that most of the restrictions are lifted as soon as possible. Then we can get back to working hard at looking after what we hold dear.

Have a Great Yuletide or Merry Christmas and let's make 2021 be the year we take our country back.

THE EMBLEM - www.britishmovement.info

YULE GIFTS FOR CHILDREN

Looking After Our Own

Yule Gifts for Children

Is a Looking After Our Own campaign that is being run by our British Movement Women's Division. They normally do a Children's Christmas Party for the children in the movement as well as other family events.

With the Covid restrictions there was no chance of a party this year. So, with that in mind they still wanted to make sure that the children within the movement knew they were important and part of something bigger.

So, Yule Gifts for Children was born. A simple campaign for this year where people made donations and women went out and brought gifts and got them out to the children.

The women who came up with the idea were only expecting to get about £100 so only thought about getting small token gifts for the children but the British Movement community have come together, and you have all surpassed their expectations and nearly £500

was raised in a few weeks. The British Movement Women's Division would like us to thank each and everyone of you who donated to this campaign.

The children have now got bigger and better gifts all and all but a few that are going out this weekend most have already been sent out to the families. With the generosity of our community the women's division have also managed to put together a couple of hampers to go out to families that they know have struggled this year with different things. They do hope no one is offended by this.

Some might think this is a one-off campaign, but no the women's division are wanting to keep this campaign going and hopefully make it bigger and better. This year was done on a small-time scale. So, only money donations could be made but, in the future, when we can get back to a full calendar of events, they are hoping that people will buy gifts and bring them a long to

events so they can collect them and then they can send them out and use them when they do their Children's Christmas Parties.

For those who prefer to donate money they will carry on offering way to do so.

As already mentioned, they are hoping that they can also grow this campaign into helping other families who do struggle at this time of year. The aim is to be able to help them by buying their family Christmas/Family Day meal.

Some words from the British Movement Women's Division "Thank you one and all, we are truly amazed by the generosity that has been shown through this short campaign. Thank you for showing the children of our community that they and always will be worth the fight. We know from what you have shown this year that we can and will make this campaign grow bigger and better each year. Thank you everyone."

The Money People

I have used the current situation to catch up on my reading about what is happening, why and who is behind it. One particular book that opened my eyes was The New Unhappy Lords written by A K Chesterton it's well worth a read. I had an idea of why things are happening, but this explains in detail and with proof or further reading.

He said the plan to bring about the NWO began during or after the French revolution. I believe it started earlier than that go back to the ancient Roman Empire and who fermented rebellion there.

The same people have done so throughout history and are still doing so today they were all ways behind the scenes hidden from view but after the American war of independence they gained control of that country. Have been based in New York and made plans to bring about the destruction of the western world.

The first major event in their plans was the Russian Revolution which along with WW1 saw millions of the white race killed.

Countries were made bankrupt and with the Marxists gaining power there and all the horrors that entailed. These people now had both Capitalism and Communism has tools to be used to reach their goal of world dominance.

Those same people have destroyed any country who even remotely looks like they might threaten their global takeover. The best example was National Socialist Germany and the system of government they rid their selves of the shackles of Capitalism. By doing this Germany was showing the World there was an alternative way of living that was better in every way to the oppression of the twin evils they offered us.

Therefore, they had to destroy that system which resulted in WW2 and yet more of our race dying for them. You might think they would be grateful we fought for them, but the opposite is the case whilst we were fighting our racial brother's. They were plotting to destroy our Empire, and this has caused even more suffering worldwide something they do not care or give a second

thought about. Looking at things today I must say Chesterton's book is dated but parts are still relevant the money people still pursue their vile aims. We are in a worse place, but there is light at the end of the tunnel mainly in eastern Europe. They have not had the years of falsehoods and lies, no mass migration of alien races who hate all that our country once stood for. I bet the enemy are kicking themselves about that let us hope there is a resurgence of nationalism at the least and the National Socialists in those countries take full advantage of this.

This not meant to be defeatist it is just my opinion at this time it could change with all that is going on. The people are waking up to the lies they have been told, that is why we have these draconian measures in place. The powers that be are terrified of what could happen to them if or when people decide enough is enough and do what is needed.

We need to educate ourselves, so we are able to show others the truth and keep the national socialist flame burning.

Reports from Around the World

PAGE 4

Spain

COVID-19

The Spanish government has called on people to behave responsibly and use common sense. After pictures of the first weekend in December showed the streets of Madrid, and other big cities such as Barcelona, Valencia and Malaga heaving with crowds of people due to seasonal shopping. Despite the country's ongoing struggle with the second wave.

Spain has been in a

state of emergency since the end of October and is subject to an overnight curfew from midnight to 6 am. Spain's Secretary of State for Health has pointed out that huge sacrifices had been made to flatten the curve and that many families especially those with vulnerable members had suffered greatly.

The Spanish government of Madrid is proposing to allow groups

of up to 10 people to gather on Christmas Eve and Christmas Day and on New Year's Eve and New Year's Day also on the Feast of Epiphany the 6th January. The number of different households allowed to mix would be capped at 3. To date Spain has 1.7 million cases, and 46,646 Deaths.

While migrants are still landing on the beaches of Spain the Canary Islands are facing a surge in migrant arrivals. The Canary Islands will not become a 'New Lesbos', Madrid said in a reference to the Greek island which has long been a main entry point for migrants to Europe.

Over 16,000 migrants have reached the Canary Islands off the west coast of Morocco so far this year, 10 times the number that arrived in

the whole of 2019.

Reception centres on the archipelago are filled to capacity, hundreds of migrants have been put up in tents at the port of Arguineguin on the island of Gran Canaria.

The route from west Africa to the Canaries has become popular with migrants as authorities have cracked down on other Mediterranean routes.

The Spanish Constitutional Court has an-

nounced that it would fast track deportations of migrants who attempt to enter Spain's North African Enclaves Ceuta and Melilla. The two Enclaves represent the EU's only land border with Africa. The French news agency reports "thousands of migrants mostly from sub-Saharan Africa try to scale the fences to make it into Spain". In 2020 up to November 15th a total of 1,300 migrants have been registered in Melilla and 850 in Ceuta.

THE COLOUR OF MONEY.

Has anybody paid real attention to advertisements lately?

More than just trying to change our buying habits, every advertisement, to the minutest detail has been very subtly but cleverly calculated to reshape how we live; even how we think.

Study any advertising, whether on tv or online, on billboards or buses, magazines or mail, trains or taxis - in fact just about everywhere and, if you never noticed before, the realisation may dawn that there is a definite theme...

Gone is the traditional milky bar kid, the bistro family, the fairy liquid mum: replaced now by virtually exclusively 'persons of colour' whether they be any shade of black, brown

or several of the new rainbow hues, promoting anything from burgers to luxury brand goods...

This advertising assault on our traditions, our values and our cultures gets beamed into our homes 1984 style or thrust directly from mobile devices into the faces of not just us but our impressionable young folk and constantly projects images such as males kissing each other in celebration of their new insurance policy, utility provider or hair transplant and a 'person of whiteness' included only in a token role, most often representing a multicultural family perspective as normal and typical and commonly projecting the image of a white female hugging a non-white male!

This distorted view seems

to have intensified in the lead-up to Christmas or maybe it is the subterfuge of the fluctuating Covid-19 lockdowns/ dumb downs.

On a brighter note, I would like to take this opportunity to wish you all the very best for a wonderful Yuletide / Christmas & the Safest and Most Prosperous New Year. By keeping a Positive Mental Attitude - 2021 will be a year we go from strength to strength in getting our message out to millions more disenchanted folk.

Till next year.

Remember we are always happy to include your words in The Emblem

Covid-19 Vaccine

PAGE 5

Britain is the first country in the world to roll out the Covid-19 vaccine. A vaccine that has been rushed through so we can get back to normal life. But as we are already seeing normal life will not return for some time yet, if ever?

Our ever-unreliable government and media are pushing the vaccine. Saying it will help but not many of us trust a word they say.

We were put into a second lockdown in November. Why? When only 124 more people during October 2020 died than in October 2019. Yes, there were more cases reported but there were more tests done.

How can we trust a vaccine that has been rushed through in 10 months when most medicines take years to get to the

same point? A vaccine that they want everyone to take not knowing if there are any long-term side effects. A vaccine that the pharmaceutical companies have made sure they have immunity from being sued if it causes serious damage to people's health.

Within 24 hours of the vaccine programme starting. There was 2 people who suffered severe allergic reactions to the first lot of vaccines. This prompted an immediate change in advice that if people suffer from severe allergies, they should not have the vaccine.

While many are saying we should take it when it is available. Most do not understand that even with the vaccine you can still be infected by

the virus and that you can still pass the virus on to others. Never forgetting that the virus has a survival rate of over 99%.

Since they have started with the vaccine it has come to light that since August 10,000 people that have caught the virus have done so by being treated in our hospitals. The same hospitals that we were trying to protect with the lockdowns.

Our hospitals should be the safest place for us with the enforced restrictions but no they are most probably the main reason this is continuing.

Also during the vaccine trials it is coming to light that a number of volunteers have developed Bells palsy.

Deal Or No Deal

I was watching the Jeremy Vine show this morning one of the topics was deal or no deal with the E.U. We had the usual suspects trying to tell us how badly things would go without a deal, there was that vile man Alistair Campbell saying our economy would be damaged permanently if we left without a deal. Well for one we have supposedly already left on the 31 of January of this year and all the government are trying to do is sort out some sort of way, we can still trade with them but without the restriction's membership entailed when dealing with the wider world. Has our economy not been damaged already due to the current restrictions placed on us due to COVID-19 lockdown and even if things got worse in the

short term, they would surely improve given time and building new trading links with other countries? The Liberals have lied to us about the benefits of membership to this unelected body and when we first joined it was the common market and was supposed to about trade and nothing else at least that is what we were told by the then prime minister Ted Heath, and they continue to lie. The idea of some type of union is not a bad idea if it is an elected body who are accountable for any things they do; Sir Oswald Mosley was right about a united Europe that could then stand up to the Zionist controlled USA. But the EU is about a million miles away from that and along with the W.H.O, NATO NORTH ATLANTIC TREATY and

with other groups are nothing but tools which are being used by the global elite in furtherance of their final goal of total dominance of the world. A one world government, these liberals try to tell us that this would be good because there would be no more wars or people dying through lack of food or from diseases. This government would be benevolent well I do not believe that in fact if you look at who is behind this and the way they behave you must conclude that it would be bad for all those but those who are in control. That is why we must fight against everything they stand for and never give up no matter what otherwise our great race will be enslaved or much more likely we will not exist there will just be a mud-coloured army of slaves working for

Grooming Gangs Report

After a freedom for information request the grooming report has finally been published.

But what is no surprise is that the report shows that abusers come from all backgrounds. The useless Home Secretary has put this down to poor data collection. In the foreword to the report, she states "Victims and survivors of these abhorrent crimes have told me how they were let down by the state in the name of political correctness."

We all know even if the report has failed to show that for the last 30 years the Muslim dominated areas in our lands. These gangs have operated freely. They have targeted young white girls for their sick pleasure.

In fact, days before the report was released there were headlines that a gang of 32 men were to appear in court facing over 200 charges of sexual offences against 8 girls who were aged between 13-16 when the abuse happened between 1999-2012. The abuse happened in loca-

tions around Kirklees, Bradford and Wakefield.

32 men all aged between 31-50. In total they are facing 20 different charges. All but 6 of them are charged with multiple rape offences and only 1 is not facing a rape charge even though he has been charged with aiding and abetting multiple rapes and trafficking. In total the gang has been charged with 141 rape offences.

That figure is horrendous when you average it out between each victim. Each victim could just on the charges alone have been raped 17 times. Think about that, once can destroy someone's life. Yet the chances are that each victim has been raped 100 times more than that.

The true reality of the abuse each victim has endured will only be known to them. Only a few of the animals will ever be punished for what they have done. Even worse for the victims that unless they move extremely far away from their family, friends and all they know. The chances are they will see one of their abusers and

instantly be taken back to a horrible place.

These animals need removing from our country as they are turning it into a third world country. Where our girls are easy meat. The powers that be are more interested in not upsetting the communities that these animals come from than protecting our girls from horrendous abuse they are subjected to.

Then to add more insult to injury so many of these animals that have been convicted of these horrendous crimes. Should have been deported after being released yet they are still allowed to remain and torment their victims more.

The system has had 30 years to get to grip with these crimes and these gangs but instead of stopping them. They have helped them by giving them licenses to open more premises. They have pushed the multi-culture lie that hard they have put our children at risk and then claim that what is needed is safeguarding to protect our children.

Just some of the convicted Muslim grooming gangs members

THE EMBLEM

PAGE 7

Elites Do not Follow the Rules

I have been watching the news with interest and anger regarding these rules, the latest liberal elites? To break these rules are Kate Burley Beth Rigby, Inzamam Rashid and Sam Washington who along with ten of chums went to a swanky west restaurant to celebrate Burley's Birthday she also went to another restaurant to use the toilet whilst waiting for a taxi her, a small group of them also went back to her house to continue the party lucky them us ordinary folk have not been allowed to meet or even have a pint let alone go to a party.

This is just the latest instant of those who think they are better than us ignore the rules I bet they are more of them who have not been caught, meanwhile the people are being threatened by the police who and they are being very heavy handed when doing so there are plenty of video examples of them in action

on YouTube, does this not prove the virus is not has dangerous has they would have us believe.

Also, all this talk about the vaccine and it being voluntary is rubbish they are talking about issuing cards to those who have the vaccine and what does that mean to those who will not have it well it can only mean that those who don't have this card will not be allowed to travel go to work or socialise and they might not be able to receive medical treatment, there is nothing voluntary about this what they are doing gives you no choice in the matter.

If you watch the news they are already telling us there might be another lockdown in January might be means there will be, there aim is to bankrupt the western world and bring our standard of living to that of the third world countries and that makes what they want to achieve so much easier because if people are struggling

to put food on the table or a roof over their heads they won't notice what going on around them until it's too late.

This all ties in with what has been said in earlier issues of The Emblem and I believe the final step will be the cashless society, everything that has happened since the virus hit us is leading to a police state the powers that be are using this has a tool to condition and control the population of this country and the rest of the World so has to hasten a one world government.

Luckily, there are people in the know about what's happening and the numbers are growing with each lie they tell us we must grab the opportunity when it rises and if this means working with those of a different political persuasion so be it but only in the short term this might upset some of you, but the alternative will be the New World Order.

Have We Lost Football?

Football one of Britain's favourite pass times. Be that playing or following a team.

For many white working-class, our loyalty to our team is part of who we are.

Now for years we have watched our teams change beyond recognition. The connection to us and our own is being taken away in support of following the money.

This year has seen the biggest betrayal of football supporters. Our teams have brought politics into the beautiful game. Coming after the banning of players wearing poppies because politic should not be brought into football. Our teams have all took the knee for the Marxist Black Lives Matter movement. Which has brought politics back into football.

Some supporters have tried to show their clubs how offensive they have found this latest betrayal. Many have cancelled their sports tv subscription, others have cancelled their season tickets. One even sent a plane with a banner over a stadium

to let them know we do not want it.

But when finally, limited numbers were allowed back into some stadiums after the second lockdown ended. Some supporters showed straight away that they were not happy with it. Of course, the clubs and mainstream media jumped on it screaming racism. Some of the supporters have been given a lifetime bans for letting the world know that they disagree with the Marxist movement.

Mainstream media and the football clubs are all pushing it is about fighting for equality. If equality is their true aim. Why are those who have a different opinion not shown the equality and allowed to share their thoughts on things important to them.

Nothing about the Marxist Black Lives Matter Movement is to do with equality.

Until many more are prepared to turn their backs and not give a penny more to these clubs. They will continue to abuse our support and we will lose our beloved football.

THE EMBLEM

A British Movement Newspaper

We Will Have Our Country Back!

BRITAIN is in rapid decline. Decades of subversion by the political Left and stupidity or worse from the political centre, the liberals and conservative Right has totally undermined the spirit and structure of what was once Great Britain. Successive governments have duped the British people into accepting the constant influx of foreigners, immigrants, economic migrants, asylum-seekers foreign investors, foreign companies, foreign banks, foreign customs, foreign cultures, foreign religions, foreign attitudes. Successive governments have embroiled Britain in un-winnable overseas conflicts, wars which do not offer Britain security but leave the UK vulnerable.

Large scale non-white immigration coupled with years of almost state-sponsored multi-culturalism, rampant materialism, and mind-numbing popular entertainment has undermined traditional British values and turned the ordinary British worker into a soulless consumer, addicted to fast food and the slop poured out by decadent, multi-national media, hooked into international brand-named industries. The time has come to call a halt to the betrayal and corruption of the British people by these so-called democratic forces.

The time has come to force radical changes with radical ideas of British National Socialism.

Britain Awake!

We Will Have Our Country Back!

14 WORDS – We Must Secure the Existence of Our People and a Future for White Children.
